PRODUCT DATA SHEET

RHINO SHRINK WRAP HEAT GUN

rhinoshrinkwrap.com

DESCRIPTION

Rhino Shrink Wrap Heat Gun is a professional propane-fired heat tool designed specifically for shrinking polyethylene shrink wrap films. Engineered for industrial, construction and marine applications, it delivers a powerful 32 kW heat output, reliable piezo ignition and long service life while remaining lightweight, well-balanced and easy to use.

TYPICAL APPLICATIONS

- Scaffold encapsulation
- Temporary roofing
- Industrial weather protection
- Machinery and equipment wrapping
- Marine winterisation
- Modular buildings and temporary structures

SUPPLIED WITH

Ref No	DESCRIPTION
1	8 m propane hose
2	Propane regulator with excess flow failure valve
3	Adjustable spanner
4	Maintenance oil
5	Operating instructions
6	Protective carry case

NOTE

The information in this datasheet is believed to be accurate at the time of publication and is provided for guidance only. Unless otherwise stated, all values shown are typical. Rhino Shrink Wrap® reserves the right to amend product specifications without notice. Users are responsible for determining the suitability of the product for their intended application.

PRODUCT INFORMATION

PROPERTY	VALUE
Fuel	Propane vapour
Fuel Container	Industrial propane gas bottle
Heat Output	32 kW (110,000 BTU)
Gas Consumption	Approx. 2 kg/hr
Gas Pressure	3.5 bar (50 psi)
Ignition	Piezo crystal
Weight	Approx. 1 kg
Hose Length	8 m
Burner Safety	Dead man's handle
Regulator	Excess flow failure valve
Maintenance	Occasional lubrication with supplied oil
Recommended Gas Cylinder	13 kg propane
Warranty	6 months
